<b>Meeting Title/Date:</b>	Governing Body - 23 May 2017		
<b>Report Title:</b>	Quality Improvement and Assurance Report		
<b>Paper Prepared By:</b>	Paul Magee/ Margaret Williams	<b>Date of Paper:</b>	10 May 2017
<b>Executive Sponsor:</b>	Margaret Williams	<b>Responsible Manager:</b>	Paul Magee
<b>Committees where Paper Previously Presented</b>	Executive Team (9 May) Membership Council (18 May)		
<b>Background Paper(s):</b>	<ul style="list-style-type: none"> <li>The Functions and Duties of Clinical Commissioning Groups first published March 2013</li> <li>Health and Social Care Act 2012 (section 26)</li> </ul>		
<b>Summary of Report:</b>	<p>The attached report is provided to ensure the Executive Management Team; Quality Improvement Committee, Membership Council and Governing Body are appraised of MBCCG's quality activity, monitoring and actions. It outlines how the CCG delivers its statutory duties to maintain and improve quality of services commissioned including safety and experience. The areas covered align to the delegated duties of the Executive Chief Nurse.</p>		
<b>Recommendation(s):</b>	1. To agree and appraise the detail covered in the report		
			<b>Please Select Y/N</b>
<b>Identified Risks:</b>	Associated operational and corporate risks are recorded on the Risk Register.		
<b>Impact Assessment:</b> (Including Health, Equality, Diversity and Human Rights)	The report describes quality aspects of services commissioned for our population.		
<b>Strategic Objective(s) Supported by this Paper:</b>			<b>Please Select (X)</b>
To Improve the health of our population and reduce inequalities in health			X
To reduce premature deaths from a range of long term conditions			X
To develop care closer to home			X
To commission safe, sustainable and high quality Hospital Health Care			X
To commission safe, sustainable and high quality Mental Health Care			X
To improve capacity and capability of primary care services to respond to the changing health needs of our population			X
<b>Please Contact:</b>	Paul Magee Interim Quality Manager, MBCCG		

# CCG Quality Improvement and Assurance Report

Progress report on the CCGs delivery of its Quality Improvement and Assurance Standards

April 2017

● External Investigations / Reviews / National Changes .....	21
<b>Other Exceptions to Report (including system wide issues)</b> .....	<b>22</b>
● 12 Hour breaches .....	22

## Introduction

### Purpose of the Report

The following report provides an update on the CCGs delivery of its Quality Improvement and Assurance Standards.

For each quality heading, the report summarises:

- The current position
- A summary of the key actions being taken to address quality activity or risk
- A summary of the key risks and barriers

### Report prepared for: MBCCG Governing Body

NB: Team/Committee/Governing Body members are reminded that the information contained within this report is as up to date as is available at the time of writing. NHS England, Public Health England, Health & Social Care and others publish data and information at different times for different periods, depending on the submission requirements for each activity. Within the report the source and date is noted and comparisons made where possible/appropriate (or is available).

### Reporting under review following boundary change (April 2017)

### CCG Sustainability Rating

The report includes a traffic light rating system which highlights where the Quality team have concerns over the delivery or sustainability of the target or standard. This rating is based on both hard and soft intelligence and has been developed so that the CCG can flag where delivery is at risk, even if the target performance appears to be on track.

CCG Rating	Definition
Green	<ul style="list-style-type: none"><li>• The quality standard is being achieved by the CCG and / or provider</li><li>• The CCG is confident that the delivery can be sustained for the next 6-12 month</li></ul>
Amber	<ul style="list-style-type: none"><li>• The quality standard has not been achieved by the CCG and/ or provider</li><li>• Additional ongoing activity is in place to monitor this rating</li><li>• The CCG lacks confidence that delivery can be sustained for the next 6-12 month</li></ul>
Red	<ul style="list-style-type: none"><li>• The quality standard has not been achieved by the CCG and / or provider</li><li>• The CCG lacks confidence that delivery can be sustained for the next 1-3 months</li><li>• The deterioration in quality was not forecasted by the CCG or its providers</li></ul>

To ensure information provided by Morecambe Bay Clinical Commissioning Group (MBCCG) is accessible, information can be made available (upon request) in a variety of formats. The CCG can also provide help for people who require information in languages other than English.

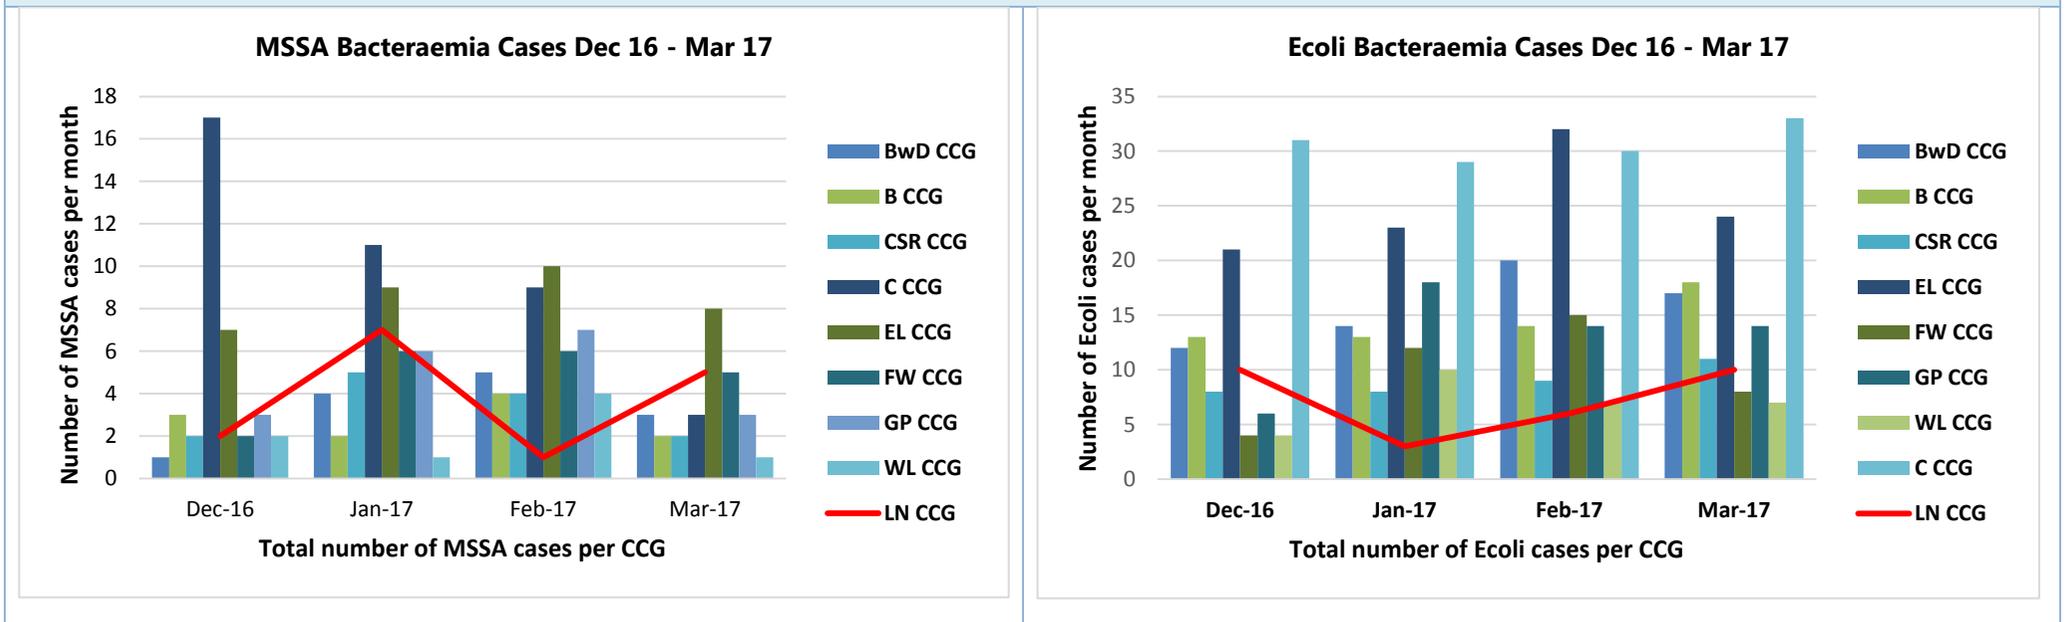

## Patient Safety

### ● Clostridium Difficile / D&V outbreak information

CCG Lead: Margaret Williams	Management Forum: HCAI Infection Control Steering Group	Sustainability Rating: Amber																																			
<p><b>Current Position / Issues</b></p> <p>Lancashire The IPCN team monitor the current outbreaks of D&amp;V in care homes (not linked to CDI) across Lancashire. There was <b>Zero (0) outbreaks in LN locality care homes April 2017</b>. A D&amp;V outbreak log is provided weekly to MBCCG Chief Nurse and Safeguarding team</p> <p>There were <b>5 CDI cases</b> reported in <b>March 2017</b> bringing the total to <b>43 cases April-March 2017</b>. The majority of cases continue to be non-acute (community). Data Source: <i>Public Health England, March 2017</i></p> <p><i>Cumbria</i> At present disaggregated data is not available for Cumbria CDI cases. The CCG is aware of 3 CDI cases reported in April, but this figure requires qualification from Cumbria Country Council Public Health Team (see 3<sup>rd</sup> action point to the right)</p>	<p><b>Actions</b></p> <ul style="list-style-type: none"> <li>• One of the boundary Quality work stream activities is to align the Cumbria and Lancashire North Post Incident CDI Review processes. This will ensure learning points are communicated across the 'Bay' wide community of general practice.</li> <li>• The Antimicrobial Resistance Stewardship Group (ARC) continues to develop its delivery plan. Building on the work undertaken so far, it aims to accelerate momentum to reduce the misuse and overuse of antibiotics, improve IPC practices and minimise HCAIs</li> <li>• <b>Discussions are underway with Cumbria LA (PHE) to gain equivalent D&amp;V log for South Lakes and Furness locality</b></li> </ul>	<p><b>Risks</b></p> <p>Ability to successfully implement Antimicrobial Strategy 'Bay' wide.</p> <p>The CDI objectives for 2017/18 set by NHSI need to reflect the boundary change of MBCCG. PHE and LA's are working through the process of realigning. Improvement/collaborative activity continues</p>

● DATIX Incident Reporting and Soft Intelligence

CCG Lead: Margaret Williams		Management Forum: MBCCG Serious Incident group (SIG)		Sustainability Rating: Green
Current Position / Issues	Actions	Risks	Supporting Analysis	
<p>During the period 15 March 2017 to 26 April 2017 there have been a total of 23 incidents reported through Datix.</p> <p>Technical issues are still ongoing with GPs now reporting similar issues like those they were experiencing in October and November. Care Homes are still unable to access the site. This has been raised with the Senior Manager for Performance, Business Intelligence and Elective Care who has identified a number of potential remedies with their suitability being assessed.</p> <p>During the period 15 March 2017 to 26 April 2017 there have been a total of 3 incidents reported through South Cumbria SIRMS</p> <p>The main theme from 15/03/2017 – 26/04/2017 incidents is:</p> <ul style="list-style-type: none"> <li>• Discharge documentation</li> <li>• Monitoring of Care: Pressure ulcers</li> </ul> <p>Reoccurring themes year to date are:</p> <ul style="list-style-type: none"> <li>• Medication errors</li> <li>• Monitoring of Care: Pressure ulcers</li> <li>• Discharge documentation</li> </ul> <p>Data source: LNCCG Datix and NECS SIRMS</p>	<ul style="list-style-type: none"> <li>• A newsletter is being shared each month with all appropriate stakeholders (GP's and Care Homes) to encourage reporting and refresh the understanding of DatixWeb. The newsletter also highlights positive outcomes from reporting incidents.</li> <li>• The Quality team are linking closely with the safeguarding team to make them aware of any safeguarding issues reported through Datix.</li> </ul>	<p>System not utilised, learning not applied.</p>	<p><b>Reporting under review following boundary change (April 2017)</b></p>	

● Mortality

CCG Lead: Margaret Williams	Management Forum:	None	Sustainability Rating:	Green																							
<p><b>Current Position / Issues</b></p> <p><b>SHMI:</b> Summary Hospital level Mortality Indicator (SHMI) is the hospital-level indicator which reports all deaths in hospital and all deaths that occur within 30 days of discharge from hospital. SHMI adjusts for fewer factors than HSMR and does not adjust for palliative care. The relative risk for UHMB of 1.00 (North West 1.04) represents as expected performance when compared to hospital trusts nationally and taking into account the trust's case mix.</p> <p><b>HSMR:</b> Hospital Standardised Mortality Ratio (HSMR) are complex mortality indicators which are used by hospitals and regulators to measure whether the number of people who die in hospital is higher or lower than expected. HSMR measures in-hospital mortality and adjusts for a number of factors including demographics, co-morbidities and palliative care. The HSMR national benchmark is 100. The Deputy Medical Director at UHMB is overseeing a review of HSMR and mortality due to a steady upward trend against the requirement to remain at or below 100. UHMB YTD figure is 97.06</p> <p>*HSMR data is published approx. 3 months in arrears.</p> <p>Data source: AQUA, April 2017</p>	<p><b>Actions</b></p> <p>The AQUA reports are received quarterly and continue to be monitored</p> <p>MBCCG has requested the minutes and actions from the UHMB Mortality Review Group. Headlines will be reported here.</p>	<p><b>Risks</b></p> <p>Deteriorated outcomes and higher risks</p>	<p><b>Supporting Analysis</b></p> <p>Chart and table below: UHMB SHMI time series</p> <table border="1"> <thead> <tr> <th>Period</th> <th>Apr 14 - Mar 15</th> <th>Jul 14 - Jun 15</th> <th>Oct 14 - Sep 15</th> <th>Jan 15 - Dec 15</th> <th>Apr 15 - Mar 16</th> <th>Jul 15 - Jun 16</th> <th>Oct 15 - Sep 16</th> </tr> </thead> <tbody> <tr> <td>Trust</td> <td>1.00</td> <td>1.00</td> <td>1.00</td> <td>0.99</td> <td>0.98</td> <td>0.99</td> <td>1.00</td> </tr> <tr> <td>North West</td> <td>1.03</td> <td>1.03</td> <td>1.03</td> <td>1.03</td> <td>1.03</td> <td>1.04</td> <td>1.04</td> </tr> </tbody> </table>	Period	Apr 14 - Mar 15	Jul 14 - Jun 15	Oct 14 - Sep 15	Jan 15 - Dec 15	Apr 15 - Mar 16	Jul 15 - Jun 16	Oct 15 - Sep 16	Trust	1.00	1.00	1.00	0.99	0.98	0.99	1.00	North West	1.03	1.03	1.03	1.03	1.03	1.04	1.04

## Patient Experience

### ● Complaints and PALS

CCG Lead: Jacqueline Thompson		Management Forum: Equality and Engagement Committee		Sustainability Rating: Green	
Current Position / Issues		Actions	Risks	Supporting Analysis	
<p><b>NB: not currently a MBCCG view</b></p> <p>During the year April 2016–March 2017, LNCCG received 20 complaints, one less than the previous year. The majority of complaints related to Continuing Healthcare and changes to the availability of various prescription medicines. Other complaints were received about the NHS 111 service, Out of Hours service, acute services and commissioning policies. The CCG also received 60 concerns/enquiries during the year, 47 more than the previous year. These related to continuing health care, changes in prescribing, GP practices, community and acute services.</p> <p>During the year all but one complaint were responded to and resolved within the statutory timeframe. One complaint remains open due to the complexity of the issues and investigation required.</p> <p>Data source: MBCCG Corporate Services, April 2017</p>		<ul style="list-style-type: none"> <li>The CCG reviews all complaints, concerns and PALS it receives through the Equality and Engagement Committee. We receive a monthly SITREP from MLCSU and they submit a national quarterly report re number of complaints on our behalf.</li> </ul>			

### ● Assurance Visits / Walk rounds / Clinical Insights / Listening in Action

CCG Lead: Margaret Williams		Management Forum: MBCCG Quality Assurance Meeting (UHMB/MBCCG)		Sustainability Rating: Green	
Current Position / Issues		Outcomes	Actions		
A programme of walk rounds is to be agreed from April 2017		<ul style="list-style-type: none"> <li>Walk rounds following the boundary change in April will include Cumbria Partnerships NHS Trust</li> </ul>			

### ● Quality Transition arrangements and progress

CCG Lead: Margaret Williams		Management Forum: Quality Transition Group		Sustainability Rating: Green	
Current Position / Issues		Actions	Risks		
		<ul style="list-style-type: none"> <li>Report Completed</li> <li>Ongoing information sharing and collaborative working between MBCCG and CCCG</li> </ul>			

● Clinical Work Streams & support to ICCs

CCG Lead: Margaret Williams		Management Forum: Quality & Safeguarding Team	Sustainability Rating: Amber
Current Position / Issues	Actions	Risks	
<p>The team members from Quality and Safeguarding Team have aligned themselves to each clinical Work stream and ICC.</p> <p>The aim is to support, advice and guide these Work stream and facilitate improved safeguarding and quality leadership</p> <p>Integration of team members will bring about local application of Bay wide improvement programme</p> <p>Data Source: MBCCG named Quality/Safeguarding Leads</p>			

● Patient Group Updates

CCG Lead: Margaret Williams		Management Forum: None	Sustainability Rating: Green
Current Position / Issues	Actions	Risks	Supporting Analysis
<p><b>Healthwatch Lancashire</b> <b>Healthwatch Cumbria</b> Data source: Healthwatch Lancashire, Healthwatch Cumbria, April 2017</p>	<ul style="list-style-type: none"> <li>No new enter and view reports available (April)</li> <li>No new enter and view reports available (April)</li> </ul>		A future meeting with Health Watch Lancashire and Health Watch Cumbria is planned

● Patient Feedback, Surveys and Friends and Family Test (FFT)

CCG Lead: Margaret Williams	Management Forum: MBCCG Quality Assurance Meeting (MBCCG/UHMB)	Sustainability Rating: Green
Current Position / Issues	Actions	Risks
<p><b>NB: CPFT not featured this report UHMB FFT</b> In February 2017, the percentage response rate for Accident and Emergency was 26.4% (BTH,</p>	<ul style="list-style-type: none"> <li>The Trust is able to identify the services with the fewest responses, the lowest 5 star score and the most negative comments. Work with these departments will be tailored and specific, with the aim to provide support in order to improve</li> </ul>	<ul style="list-style-type: none"> <li>There is a particular challenge for Outpatients, as NHS England measure feedback collected for each and every visit. For patients, who are frequent attenders, the request for them to complete the test on every hospital visit (even if they are</li> </ul>

CCG Lead:	Margaret Williams	Management Forum:	MBCCG Quality Assurance Meeting (MBCCG/UHMB)	Sustainability Rating:	Green
Current Position / Issues	Actions		Risks		
<p>13.4%, LTH, 13.9%, England 12.7%) against a target of 20%. The percentage who would recommend the department was 88% a small decrease on the December figure.</p> <p>The percentage response rate for inpatients was 33.9% (target 40%) a slight increase on the January figure. The percentage who would recommend the department was 95%, a slight decrease on the December figure.</p> <p>The number of returns for the outpatient department was 2,935 against an eligible population of 24,508. There is currently no target for outpatient returns. The percentage who would recommend the department remains at 94%.</p> <p><b>UHMB Maternity FFT</b> In February 2017 the Trust received 16 responses from an eligible total (number of births) of 217 which equates to a 7.4% response rate of which 100% would recommend. This compares with BTH; 73 responses from 194 (37.6%), 100% recommend and LTH; 26 from 231, (11.3%), 100% would recommend.</p>	<p>results. Progress will be carefully monitored.</p> <ul style="list-style-type: none"> <li>This update includes Primary Care data for both Lancashire North and all Cumbria practices.</li> <li>The latest information / data release in April from NHSE relates to February 2017</li> </ul>		<p>visiting the same clinic) is proving to be ambitious.</p> <ul style="list-style-type: none"> <li>Patients, whilst happy to provide feedback, are struggling to understand why they are asked on multiple occasions in sometimes, what can be a very small time window.</li> <li>Although there is a genuine challenge in respect of collecting feedback from outpatients after each visit, the Trust recognises that considerable work needs to be done to raise the current response rates which are being recorded.</li> </ul>		
<p><b>Primary Care FFT</b> The response rate in General Practice is generally low, so the significance of the data should be treated with caution. LNCCG GP Practices (February 2017) 92% would recommend (England 89%) CCCG GP Practices (February 2017) 96% would recommend (England 89%)</p>					
<p><b>Blackpool Community FFT</b> In February 2017, the number of returns for community services was 1,353 against an eligible</p>	<p>The February data, published in April 2017 for Community services;</p> <ul style="list-style-type: none"> <li>Children's and Family Services; 94% would recommend</li> </ul>

## Clinical Effectiveness

### ● Care Quality Commission (CQC) Ratings

CCG Lead:	Margaret Williams	Management Forum:	None	Sustainability Rating:	Amber
Current Position / Issues				Actions	Risks
<p><b>Primary Care</b>            During 2015/16 all of the CCG's general practices underwent their CQC inspections and had their reports published. The practices have all received a 'good' rating. In South Cumbria the majority of Practices received a "Good" or "Outstanding" rating. The CQC start the next primary care inspection programme in October 2017.</p> <p><b>University Hospitals of Morecambe Bay (UHMB)</b>            The CQC latest report was published on the 9 February 2017 the CQC rated UHMB as overall "Good". With caring being rated as "outstanding", but safe rated as "requires improvement" mainly relating to A&amp;E 4 hour waiting.</p> <p><b>Lancashire Care NHS Foundation Trust (LCFT)</b>            In the latest report published on the 11 January 2017 overall the Mental Health Trust was rated as "Good". Although it should be noted that Community adult services "Requires Improvement".</p> <p><b>Cumbria Partnership NHS Foundation Trust (CPFT)</b>            In the latest report published on the 23 March 2016 overall the Mental Health Trust was rated as "Requires Improvement".</p> <p><b>North West Ambulance Service (NWAS)</b>            In the latest report published on the 19 January 2017 overall the service was rated as "Requires Improvement".</p> <p><b>MBCCG Care Home Sector: <a href="#">Reporting under review following boundary change (April 2017)</a></b></p> <p>Data source: <a href="#">CQC website April 2017</a></p>				<p>The full report can be found at the link below.  <a href="http://www.cqc.org.uk/sites/default/files/new_reports/AAAF9483.pdf">http://www.cqc.org.uk/sites/default/files/new_reports/AAAF9483.pdf</a></p>	<p>None currently</p>

● Primary Care

CCG Lead:	Margaret Williams	Management Forum:	Primary Care Quality Improvement Group	Sustainability Rating:	Green
Current Position / Issues		Actions		Risks	Supporting Analysis
<p><b>Cumbria's Out Of Hours GP service rated Outstanding by the CQC</b></p> <p>The out of hours primary care doctor service is the first in the country to receive an 'outstanding' rating under the new inspection regime.</p> <p>The regulators praised the way CHoC meets the needs of a largely rural population, uses telehealth appointments, and close working with NWS to avoid unnecessary hospital admissions as examples of outstanding practice.</p> <p>Data Source: Primary Care / CQC</p>		<p>Leadership and governance has also been praised by the CQC – particularly for the efforts and innovation shown towards recruitment. The report says services provided by CHoC are tailored to meet the needs of the local population. The CQC found that CHoC engages and involve the local community and partner organisations when developing services.</p> <p>The CQC found that the service values outstanding governance and always strives to drive a culture that focuses on delivering high-quality and person-centred care.</p> <p>Last month Healthwatch Cumbria published a survey which found that 91 per cent of patients are largely satisfied or very satisfied with their experience of the CHOC service.</p> <p>The CQC inspected the service in November and December 2016.</p>

● External Investigations / Reviews / National Changes

CCG Lead:	Margaret Williams	Management Forum:	None	Sustainability Rating:	Green
Current Position / Issues	Actions		Risks		
From April 2017 the NHS Litigation Authority changed its name to NHS Resolution and launched a five year strategy underpinning the change. NHS Resolution will be more involved in incidents at an earlier stage and as part of this strategic shift has launched a new approach to the way in which it responds to incidents involving brain damage at birth. They have already approached trusts to ask them to report all maternity incidents that occur on or after 1 April 2017 which are likely to result in severe brain injury in order to increase the level of support provided	<p>The focus of NHS Resolution will be on prevention, learning and early intervention, to avoid unnecessary distress to families and court action. This will improve the experience for those who are injured as well as address the level and cost of negligent harm.</p> <p>NHS Resolution will:</p> <ul style="list-style-type: none"> <li>Improve the experience for patients, families and healthcare staff, with support for candour and the learning which goes hand in hand with a claim for compensation.</li> <li>Resolve concerns and disputes fairly and effectively to deliver resolution in its broadest sense, which is about more than just</li> </ul>		<p>Importance of mitigating risk through independent reviews which align to CCG assurance process</p>		

<p>when these rare incidents occur.</p> <p>Data source: MBCCG Quality Team</p>	<p>money.</p> <ul style="list-style-type: none"> <li>○ Provide analysis and expert knowledge to the healthcare and civil justice systems, to drive improvement.</li> <li>○ Deliver in partnership, interventions and solutions that prevent harm, improve safety and save money.</li> <li>○ Expand its role of sharing learning through the development of interventions, in partnership with others, to improve patient safety and prevent future harm.</li> </ul> <p>Their primary focus for the future is to resolve concerns fairly. They also have a duty to use what they know, to help to prevent the same thing happening again. While they are not a patient safety body, they do have a unique contribution to make to the patient safety system. By working with and through others they can help drive improvements in patient safety and inform policy decisions.</p>
